What is a quarter auction? Well... it's a cross between an Auction (where you hold up a numbered paddle to bid on an item), a Raffle (where you are trying to win a prize), Bingo (using a chip or ball with a number on it) & a Home Party (gathering with friends)! They are a fun & easy way to raise money for a cause. The best way to really grasp the concept is to actually attend one. New & Discontinued items from local Direct Sales Vendors, Crafters & Business will be auctioned off for 1-4 Quarters per item = FUN!!!
FUN!!!

Bidder: a bidder is a guest that attends to bid on items. When the bidder arrives, they get their bidding paddle(s) which has a # on it. We have a poker chip with each paddle # on it that gets put into a bucket. The bid amount is based on the value of the item.

- \$0 - \$25 1 quarter bid
- \$26 - \$50 2 quarter bid
- \$51 - \$75 3 quarter bid
- \$76 - \$100 4 quarter bid

The auctioneer announces the item up for bid, gives a brief description including the vendor, the value and the required quarter bid. If the bidder wants to bid on the item they hold up their paddle and a vendor will collect their quarter(s). The auctioneer draws a # and the winning paddle is announced. If the # drawn did not bid, another # is drawn till the item is won. All #'s go back in the bucket so you could win several items!

Fundraiser Info: Money is being donated to the Mercy Hospital NICUPS program.
